Overhead Crane Training

(1 day)

Overhead Crane training would be delivered to you on your own site; you would need to supply the crane/equipment. The trainer will incorporate different types of practical tasks, meaning candidates are able to undertake training on the types of jobs they are required to complete in their normal working day. Training can be carried out in-house or accredited through ITSSAR on request*. Additional registration fees apply.

What you will learn

- Accident causes & prevention
- Crane/slinger signals
- Legal duties
- Load assessment
- Operating in the vicinity of pedestrians
- Overload warning systems
- Planning the lift
- PPE requirements
- Pre-use inspection
- Regulations
- Responsibilities
- Risk assessment
- Safe working loads

What we offer

Occupational Health Services

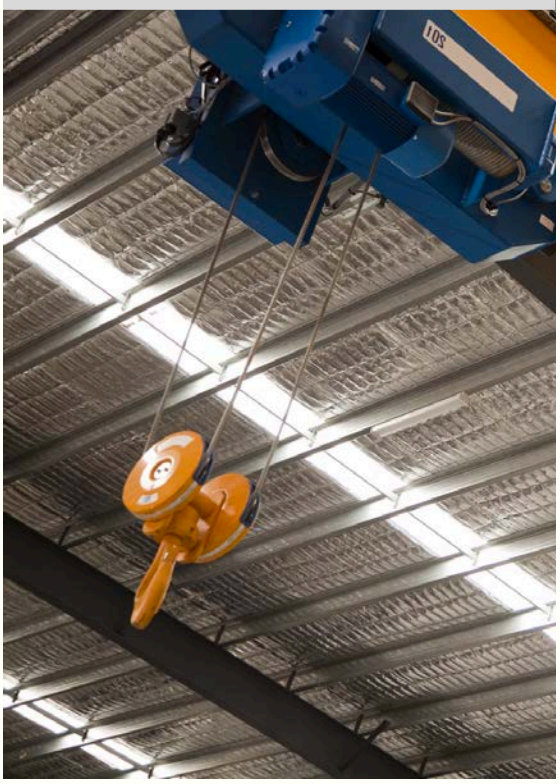
Risk Management Tools
Annual Health Check
Accident Investigation
Training Courses
SSIP Assistance
Member Helpline
Toolbox Talks
Health and Safety Audits
Annual Office Inspections
Environmental advice
UK Coverage
Online Accident Statistics
Dedicated Safety Advisers

Overhead Crane Training (1 day)



This course qualifies you to operate the specific type of crane for which you receive training. Operate on any site in the UK with permission of the person responsible for site H & S. It does not qualify you to instruct or supervise others who have not received formal training as a crane operator.

Candidates per course

Maximum of 3 delegates per day. All Experiences.

Minimum PPE (Personal Protective Equipment)

Safety Footwear	All delegates must wear safety footwear for the duration of practical training. Delegates will not be allowed to participate in training without safety footwear.
Hi vis, hard hat	Must be available for the practical training and assessment.

Equipment requirements

The client is responsible for supplying all equipment & PPE.

Overhead crane	In good, serviceable condition.
Lifting tackle	Sufficient that a load can be attached and lifted. Examples include Webbing Slings, Chain Slings, Round Slings, Wire Rope Slings, Shackles, Eye Bolts, Lifting Frames/Spreader Beams etc. Available on request, all lifting tackle must have a current and in date certificate of inspection. This inspection should adhere to the Lifting Operations and Lifting Equipment Regulations 1998 (LOLER).
Loads/ Materials	A supply of realistic loads appropriate to the training being given. Training will simulate a working environment. Without a good selection of loads to handle, training might fall short of expected standards.
Practical Training area	While training is in progress, access to this area should be restricted to the instructor and trainees. Normal work tasks potentially may be incorporated at a later stage.
Office/ Classroom/ Cabin	A well-lit and suitably heated closed-door environment to conduct theory training. Tables and chairs to accommodate all learners and the trainer assessor, this must include writing space for all learners. A screen or projector is desirable but not essential. Exclusive use of this facility is required for between 60-120 minutes on the morning of each training day.

About BSG

The Building Safety Group (BSG) is a not-for-profit organisation which specialises in providing Health, Safety and Environmental consultancy and training for the construction industry. BSG has over 800 members operating across 3500 workplaces throughout the UK. We conduct over 15,000 site inspections every year and train more than 10,000 construction workers.

What our clients say about us

"Excellent Instruction and very clearly conveyed."
Southside Scaffolding Limited

"BSG are clearly experts in Health and Safety training for the construction industry."
CTS

"As I was pretty new to the role, my knowledge was limited but after taking the BSG course I feel very confident I will be able to positively move on in my position. I have learnt a massive amount."
Prodeck Fixing Ltd

"I learnt a lot about disciplines I previously knew nothing about. Learnt new regs and reinforced my previous knowledge."
Mirage Interiors
