Your partners in health, safety and environmental welfare

Slinger Signaller / Banksman Training

Slinger Banksman training would be delivered to you on your own site; you would need to supply the lifting equipment and slings etc. The trainer will incorporate practical tasks, meaning candidates are able to undertake the kind of jobs they are required to complete in their normal working day. Training can be carried out in-house or accredited through ITSSAR on request* Additional registration fees apply.

What you will learn

- Legal duties
- Responsibilities
- Lifting tackle types and uses
- Understanding of equipment limitations
- Weight estimation
- Care and maintenance of equipment
- Hooking up procedures
- Communication and signals

Online Accident Statistics
Dedicated Safety Advisers

Slinger Signaller/Banksman Training

This course qualifies you to attach and sling loads of any weight and size with any kind of lifting equipment. Signal the operators of lifting equipment using recognised signals and procedures. Operate as a Slinger Banksman on any site in the UK with permission of the person responsible for site H&S. It does not qualify you to act as an appointed person for slinging operations or instruct/supervise others who have not received formal training as a Slinger Signaller.

Candidates per course

1-2 day course, depending on experience. Maximum of 3 delegates per day.

Minimum PPE (Personal Protective Equipment)

Safety Footwear	All delegates must wear safety footwear for the duration of practical training. Delegates will not be allowed to participate in training without safety footwear.
High vis coat, hard hat	Must be available for the practical training and assessment.

Equipment requirements

The client is responsible for supplying all equipment & PPE.

Lifting Equipment	In good, serviceable condition.
Lifting Tackle	Sufficient that a load can be attached and lifted. Examples include Webbing Slings, Chain Slings, Round Slings, Wire Rope Slings, Shackles, Eye Bolts, Lifting Frames/Spreader Beams etc. Available on request, all lifting tackle must have a current and in date certificate of inspection. This inspection should adhere to the Lifting Operations and Lifting Equipment Regulations 1998 (LOLER).
Loads/ Materials	A supply of realistic loads appropriate to the training being given. Training will simulate a working environment. Without a good selection of loads to handle, training might fall short of expected standards.
Practical Training area	While training is in progress, access to this area should be restricted to the instructor and trainees. Where practicable, training areas should be sheltered from adverse weather conditions.
Office/ Classroom/ Cabin	A Well-lit and suitably heated closed-door environment to conduct theory training. Tables and chairs to accommodate all learners and the trainer assessor, this must include writing space for all learners. A screen and projector are desirable but not essential.

About BSG

The Building Safety Group (BSG) is a not-for-profit organisation which specialises in providing Health, Safety and Environmental consultancy and training for the construction industry. BSG has over 800 members operating across 3500 workplaces throughout the UK.
We conduct over 20,000 site inspections every year and train more than 10,000 construction workers.

What our clients say about us

“Excellent Instruction and very clearly conveyed.”
Southside Scaffolding Limited

“BSG are clearly experts in Health and Safety training for the construction industry.”
CTS

“As I was pretty new to the role, my knowledge was limited but after taking the BSG course I feel very confident I will be able to positively move on in my position. I have learnt a massive amount.”
Prodeck Fixing Ltd

“I learnt a lot about disciplines I previously knew nothing about. Learnt new regs and reinforced my previous knowledge.”
Mirage Interiors

Need a course at your organisation?
