

Thank you for signing up and welcome to BSG's risk assessment and method statement software which is part of your FMB membership.

The software has been created exclusively for people in the building and construction sector and developed by BSG's construction sector safety specialists who have built a comprehensive library of templates that you can pick from reflecting the hazards and risks that you will be managing on a day-to-day basis.

It has been designed to be very easy to use and to save you time and effort when compiling, and editing, risk assessments and method statements for your projects.

To access the software please visit the BSG website www.bsgltd.co.uk, click on the Members Login icon on the top right corner of the page and select BSG Hub login.

User guides and support

An FMB/BSG user and login guide is available via this link; [BSG FMB](#)

We have also created a quick video tutorial that guides you through the process of creating a risk assessment which can be accessed by following this link; [BSG FMB Video – Task Based Risk assessments](#)

In addition, there is a dedicated BSG RAMS Health & Safety support line available, exclusively for FMB members. The telephone no. is published on the BSG Hub dashboard but for your reference it is: 0300 304 9098.

If you have a company logo that you would like to display on your risk assessments, please forward it to us and we will upload it to the software so that it appears on any completed forms you produce.

BSG Training

BSG offer a wide variety of building and construction training courses. FMB members that have access to BSG RAMS can purchase courses at the BSG member company rate which typically represents a 20% discount on non-member company course fees.
