

Your partners in health, safety and environmental welfare

Telehandler Training

Telehandler training can be delivered to you on your own site; you would need to supply the Telehandler and area to conduct training. Training can be delivered in a working environment. The trainer will incorporate practical tasks, meaning candidates are able to undertake training on jobs they are required to complete in their normal working day.

What you will learn

- Responsibility of the operator
- Operational safety code
- Site Safety
- Risk Assessment
- Simple Manoeuvring
- Advanced Manoeuvring
- Refuelling / recharging
- Basic hydraulic & electrical systems
- Daily safety checks & maintenance
- Stacking and de-stacking (free & racking)
- Practical Examinations
- Vehicle loading (where applicable)

What we offer

- Occupational Health Services
- Regular Site Inspections
- Site Inspection Reports
- Non-Compliance Reporting
- Accident Reporting
- CDM Compliancy
- Risk Management Tools
- Annual Health Check
- Accident Investigation
- Training Courses
- SSIP Assistance
- Member Helpline
- Toolbox Talks
- Fire Risk Assessments
- Health and Safety Audits
- Annual Office Inspections
- Environmental advice
- UK Coverage
- Online Accident Statistics
- Dedicated Safety Advisers

This course qualifies you to operate telehandler in accordance with BITA list classification. It also qualifies you to operate telehandler on any site in the UK with permission of the person responsible for site H&S. and use any attachment for which you receive formal training. It does not qualify you to instruct others in the use of telehandler, supervise anyone who has not received formal training and qualification in the use of telehandler.

Course duration

Course duration is dependent upon delegate numbers and experience. There is no minimum number of delegates required for training to commence.

Novice	Less than 6 months operating experience 3 day course (1 delegate: 1 instructor) 4 day course (2 delegates: 1 instructor) 5 day course (3 delegates: 1 instructor)
Experienced	More than 6 months regular operating experience 2 day course (1-2 delegate: 1 instructor) 3 day course (3 delegates: 1 instructor)
Refresher	Successfully completed formal training in the last 5 years 1 day course (1-3 delegates: 1 instructor)
Conversion	From one truck type to another 2 day course (1-3 delegates: 1 instructor)

Minimum PPE (Personal Protective Equipment)

Safety	All delegates must wear safety footwear for the duration of the practical training.
Footwear	Delegates will not be allowed to participate in training without safety footwear.
High vis coat, hard hat	Must be available for the practical training and assessment.

Equipment requirements

The client is responsible for supplying all equipment & PPE.

Telehandler In good serviceable condition. Manufacturers' instructions should be made available for training. LOLER certification must be available.

**Loads/
Materials** A supply of realistic loads appropriate to the training being given, such as loaded and unloaded pallets, bags, sacks, bales, drums and bulk materials is necessary to make training realistic.

Similarly, there should be appropriate facilities for simulating stacking at a minimum height of 3 metres.

**Practical
Training area** For all vehicle based operator/instructor training, a suitable manoeuvring area should be provided. As a rule of thumb, this area should be large enough that the vehicle used for training can comfortably perform a figure of 8 manoeuvre as a minimum.

While training is in progress, access to this area should be restricted to the instructor and trainees. Where practicable, training areas should be sheltered from adverse weather conditions.

**Office/
Classroom/
Cabin** A well-lit and suitably heated closed-door environment to conduct theory training. Tables and chairs to accommodate all learners and the trainer assessor, this must include writing space for all learners. A screen or projector is desirable but not essential.

Exclusive use of this facility is required for between 60-120 minutes on the morning of each training day.

About BSG

The Building Safety Group (BSG) is a not-for-profit organisation which specialises in providing Health, Safety and Environmental consultancy and training for the construction industry. BSG has over 800 members operating across 3500 workplaces throughout the UK.

We conduct over 20,000 site inspections every year and train more than 10,000 construction workers.

What our clients say about us

"Excellent Instruction and very clearly conveyed."

Southside Scaffolding Limited

"BSG are clearly experts in Health and Safety training for the construction industry."

CTS

"As I was pretty new to the role, my knowledge was limited but after taking the BSG course I feel very confident I will be able to positively move on in my position. I have learnt a massive amount."

Prodeck Fixing Ltd

"I learnt a lot about disciplines I previously knew nothing about. Learnt new regs and reinforced my previous knowledge."

Mirage Interiors

Need a course at your organisation?
