Task based Risk Assessment and Method Statements (RAMS)

(Half day - Remote Learning)

BSG's **Task based Risk Assessment and Method Statements (RAMS)** training program has been developed to help construction companies **create RAMS documents** which are **'tailor made'** for their business. The course is taught by showing candidates how to build **'task based'** risk assessments, which will significantly **reduce the amount of time** taken to complete RAMS documentation without compromising health and safety.

Delegates will finish the course equipped with their own custom built RAMS templates prepared as PDFs, as well as in Microsoft Word format for future editing and distribution.

What will you learn?

By enrolling on this course your employees will be shown how to;

- Create a single task/job based **Risk Assessment template** for any job or project undertaken, removing the need to create multiple documents
- Help to ensure that the templates you create meet the requirements of Management Regulations 1999 and the Health and Safety at Work Act 1974, in respect of a safe system and safe place of work
- Categorise risk using BSG's automated scoring matrix

What we offer

Occupational Health Services
Regular Site Inspections
Site Inspection Reports
Non-Compliance Reporting
Accident Reporting
CDM Compliancy
Risk Management Tools
Annual Health Check
Accident Investigation
Training Courses
SSIP Assistance
Member Helpline
Toolbox Talks
Fire Risk Assessments
Health and Safety Audits
Annual Office Inspections
Environmental advice
UK Coverage
Online Accident Statistics
Dedicated Safety Advisers

Risk Assessment and Method Statements (Half day)

- Identify and select potential hazards of the job, which are pulled through into your Risk Assessment along with all the pre-configured Control Measures recommended by BSG
- Monitor and review RAMS
- Recognise the **necessity** to prepare method statements to satisfy the requirement for a '**Safe system of Work**'. And to appreciate when that requirement becomes essential
- Candidates will also gain an understanding of the practical implications of risk assessment techniques as well as a thorough understanding of the need for Risk Assessments.

Login to the BSG hub to access our RAMS software

Who should take this course?

Those responsible for completing Risk Assessments and Method Statements.

Add new hazards to your project using BSG's templates, which include pre-configured Control Measures

Calculate the residual risk of each hazard using our automated scoring matrix

Course Rates & Dates (half day)

BSG Members: **£85** per person - Remote Learning. Fee quoted for members' rates includes 20% discount.

- 30 Jan
- 27 Mar
- 22 May
- 15 Aug
- 4 Sep
- 22 Oct
- 20 Nov

Remote Learning

This is a 'Remote Learning' course. Candidates will be provided with access to BSG's RAMS software to carry out task-based Risk Assessments and Method Statements on their **PC** or **laptop**. Login details will be provided in our joining instructions.

How to book

Book your place by calling our Training Services team on **0300 304 9080** or email **Training@BSG Ltd.co.uk** with your enquiry. Or book online via our website www.bsgltd.co.uk

About BSG

The Building Safety Group (BSG) is a not-for-profit organisation which specialises in providing Health, Safety and Environmental consultancy and training for the construction industry. BSG has over 800 members operating across 3500 workplaces throughout the UK. We conduct over 15,000 site inspections every year and train more than 10,000 construction workers.
