Rough Terrain Forklift Truck Operator Training

Rough Terrain Forklift Truck Operator training can be delivered to you on your own site; you would need to supply the forklift truck and area to conduct training. Basic training must be conducted off the job, however during later stages of the training some work tasks may be able to be incorporated once candidates have reached an acceptable standard of safe operation.

Every endeavour is taken to minimise the impact on normal working operations and ensure that training is relevant and industry specific.

Training can be carried out in-house or accredited through ITSSAR on request* Additional registration fees apply.

Your partners in health, safety and environmental welfare

Minimum PPE (Personal Protective Equipment)

Safety Footwear	All delegates must wear safety footwear for the duration of practical training. Delegates will not be allowed to participate in training without safety footwear.
High vis coat/vest	Must be available for the practical training and assessment.

Equipment requirements

The client is responsible for supplying all equipment & PPE.

Lift Truck	In good, serviceable condition.
Loads/ Materials	A supply of realistic loads appropriate to the training being given, such as loaded and unloaded pallets, bags, sacks, bales, drums and bulk materials is necessary to make training realistic. Similarly, there should be appropriate facilities for simulating stacking at a minimum height of 3 metres.
Practical Training Area	For all vehicle-based operator/instructor training, a suitable manoeuvring area should be provided. As a rule of thumb, this area should be large enough that the vehicle used for training can comfortably perform a figure of 8 manoeuvre at a minimum.
Office/ Classroom/ Cabin	A well-lit and suitably heated closed-door environment to conduct theory training. Tables and chairs to accommodate all learners and the trainer assessor, this must include writing space for all learners. A screen or projector is desirable but not essential. Exclusive use of this facility is required for between 60-120 minutes on the morning of each training day.

About BSG

The Building Safety Group (BSG) is a not-for-profit organisation which specialises in providing Health, Safety and Environmental consultancy and training for the construction industry. BSG has over 800 members operating across 3500 workplaces throughout the UK.
We conduct over 20,000 site inspections every year and train more than 10,000 construction workers.

What our clients say about us

"Excellent Instruction and very clearly conveyed."
Southside Scaffolding Limited

"BSG are clearly experts in Health and Safety training for the construction industry."
CTS

"As I was pretty new to the role, my knowledge was limited but after taking the BSG course I feel very confident I will be able to positively move on in my position. I have learnt a massive amount."
Prodeck Fixing Ltd

"I learnt a lot about disciplines I previously knew nothing about. Learnt new regs and reinforced my previous knowledge."
Mirage Interiors
