The Building Safety Group

Setting the Standard for Safer Construction

Who We Are

Trading for over 50 years, The Building Safety Group (BSG) is the UK's leading independent not-for-profit construction sector safety organisation.

Unlike other providers, we're owned and run by construction companies just like yours - our board of directors are all BSG members who decide what services we provide and at what cost. This unique structure means any surplus we generate is reinvested directly into improving the services we deliver to you.

What We Do

We provide comprehensive health and safety support to over 700 construction companies throughout the UK, helping businesses of all sizes and specialities work safer and smarter. Our directly employed Safety Advisers - many of whom are **Chartered members of the Institution of Occupational Safety and Health** - conduct over 15,000 **site inspections** annually.

What we offer

- Regular Site Inspections
- Competent Advice

- Health and Safety Audits
- Annual Office Inspections
- UK Coverage
- Online Accident Statistics
- Dedicated Safety Advisers

www.bsgltd.co.uk

Based throughout the UK, they deliver practical, jargon-free advice that's consistent wherever we work.

Our site reports are designed to be informative and actionable, providing valuable insights into accident and non-compliance trends that could affect your business.

Training Excellence

We train over 5,000 construction workers every year through our broad range of courses, including Site Safety Plus, first aid, fire safety, plant operations, scaffold training, and working at height. All courses are delivered by domain specialist tutors who ensure operatives learn the skills required to work safely on site.

We're proud to be an Approved Member of the CITB's Training Provider Network, demonstrating our commitment to delivering high-quality, industry-recognised training that meets the rigorous standards required by the construction sector. BSG members benefit from heavily discounted rates on all courses including CITB training programmes, which can be delivered at our training centre, on your premises, or remotely online.

Digital Solutions

Over 2,000 users regularly access BSG Hub, our online portal developed by builders for builders. It enables quick completion of risk assessments, method statements, and COSHH assessments with minimum fuss and no compromise to health and safety.

What Makes Us Different

Sector Specialists

We exclusively serve the construction sector, supporting many different types of building, construction, and allied trades. This focused expertise means we understand your business and can offer services specifically tailored to your needs.

Directly Employed Safety Advisers

All our Safety Advisers are directly employed by BSG, ensuring the advice you receive is always consistent and of the highest standard.

Flexibility

Our subscriptions operate on rolling six-month agreements with no lengthy tie-in periods or complicated exit clauses. While this gives you the freedom to move suppliers, the majority of our members choose to stay with BSG.

Shared Values

We believe in consistency, transparency, and cost-effective delivery—the same values our members expect. We don't just tick boxes; we provide practical solutions that work in the real world.

Take The Next Step & Experience BSG Risk-Free

If you'd like to experience our services before making a commitment, we're happy to provide a free site inspection at a location of your choice, or offer a trial of our online RAMS portal. For a general discussion about how BSG can support your business, please don't hesitate to get in touch. We look forward to hearing from you. **Contact BSG: Tel: 0300 304 9050 Email: enquiries@BSGlimited.co.uk Web: www.bsglimited.co.uk**
