INTRODUCTION

We are delighted to welcome you as a member of The Building Safety Group Ltd. (BSG), the UK's largest construction safety organisation, specialising in health, safety, and environmental site inspections, advice, and training.

This document outlines the full range of services and publications available to you, all of which can be accessed via the BSG Hub. Should you require any further information, our Membership Services Team is available on 0300 304 9070.

Our services are subject to ongoing review and enhancement to ensure they remain aligned with our members' needs, delivered to the highest standards, and provide genuine value for money.

Regular safety training is widely recognised as one of the most effective ways to maintain safe working environments. We offer a comprehensive programme of courses, available both online and at our dedicated training facilities. We encourage you to discuss your specific requirements with our Training Team on 0300 304 9080. As a member, you will also benefit from preferential rates.

We recommend that you take the time to review this document carefully, as it has been designed to provide essential health and safety guidance to support effective and compliant business management.

We are confident that your membership with BSG will prove highly beneficial. We also welcome any feedback or suggestions that may help us further enhance our services.

BSG is a not-for-profit organisation run by members, for the benefit of members.

Thank you for your continued support—your membership is greatly valued.

Neil Sherreard
Chairman of the Board

15th May 2026

How We Administer Your Membership

The Building Safety Group's subscription periods run from 1st January to 30th June and from 1st July to 31st December each year.

We will send you a Half Yearly Workforce Return to complete 2 months before the next and each subsequent subscription period begins. We will base your subscription fees for the next period on the information you provide.

Only Members who wish to subscribe to the Membership Plus category will be required to complete Section No.2 of the form. This section will ask you for the average headcount of various groups to whom you have a legal responsibility under Health and Safety legislation, not just those directly employed on construction sites – please ensure that you complete this as accurately as possible to enable us to assess the correct level of membership for your organisation and check that you will be eligible for the level of service you require.

NOTE: If we do not receive this return by the due date we will estimate your total workforce level and this figure will be used to calculate your subscription for the next period.

Please note that we do monitor the number of sites and visits requested by our members and reserve the right to contact you regarding further charges should it appear that you have underestimated the size of your workforce. Additionally, we have a duty to all members of the Building Safety Group to ensure that site inspections are carried out in an economically viable manner for all our members. Therefore, should the cost of providing you with site inspections within your subscription fall below a point where the Building Safety Group's costs are not covered, we will contact you to arrange a meeting to discuss the way forward. This may entail placing a limit on the number of inspections you receive or increasing your subscription so you can achieve the number of site inspections you require.

As a new member, your nominated main contact will have been emailed their personal log-in details for the BSG Hub as well as the company login details for Site Report Manager.

You can register as many Hub users as you would like but you will only receive one company log-in to Site Report Manager. Because of the nature of the content that is accessible in Site Report Manager, the company log-in is only given to the person from your company registered as the main contact with BSG. It is their choice to share this information with any other employees to allow them to log in.

If You Decide to End Your Membership

Please note that 6 months' written notice is required to resign your membership of the Building Safety Group. The subscription for the notice period shall be based upon the previous six months subscription.

In the event of subscriptions not being paid or becoming overdue, then all service will be suspended until the subscription payment has been received and cleared.

1. **SUMMARY OF SERVICES**

The Building Safety Group provides a range of services, some of which are included within your membership subscription.

One of the services included within all members' subscription is the provision of our online documentation detailed at Appendix 1A which helps facilitate the acceptable management of health and safety within your company.

The Risk Assessments and the Health & Safety Policy have an explanation of the legal requirements for producing them, together with a guide to their production.

Particular emphasis must be made in respect of the Health and Safety Policy and assessments that are provided by The Building Safety Group. They are in generic format and must be made specific by you to reflect your management of health and safety within your business. Should you need extra advice or guidance in the compilation of these documents, please ask the Safety Adviser who covers your office or site and they will be only too pleased to advise you.

SUMMARY OF SERVICES INCLUDED WITHIN STANDARD MEMBERSHIP AND ALL OTHER MEMBERSHIP CATEGORIES

1. Initial Health and Safety Review Meeting

We recommend you take advantage of our Initial Health & Safety Review meeting whereby one of our Safety Advisers will meet you at a pre-arranged time at your office to run through health & safety matters, including a brief review of your safety policy, health & safety procedures, statistical data, training records and other issues.

Please note that as a not for profit, membership organisation, we have a duty to all our members to ensure that Review Meetings are carried out in an economically viable manner. We therefore monitor the time it takes our Safety Advisers to conduct them and where they are asked to exceed three hours per visit (or incur excessive travel times), we reserve the right to suspend the meeting in order to agree the scope of and prepare a quotation to cover the anticipated fees for the work that is required.

2. Provision of Documentation

Access to information, documentation and alerts via the BSG Hub at www.bsgltd.co.uk

- Safety Alerts
- New Legislation Updates
- BSG Information and Media Pack

Health and Safety Documentation

Online access to over 300 health and safety document templates including:

- a) Model Health & Safety Policy
- b) Model Risk Assessments
- c) Model COSHH Assessment Template and Guidance
- d) Method Statement Template
- e) Model Environmental Management System

a) Model Health and Safety Policy

This must be made specific to your company. Our Safety Adviser who attends the initial meeting will be pleased to advise further on this topic.

b) Model Risk Assessments

The model risk assessments cover most hazards associated with the activities encountered on construction sites, workshops and offices.

Risk Assessments must be specific to the individual task and whilst our Risk Assessments are generic, the format has been designed so that they are straightforward to complete and will then be regarded as 'site specific'. Full instructions are included within the BSG Hub Health & Safety Documents.

A blank risk assessment is included to assist in the preparation of activities not covered within the model risk assessments.

You can also prepare risk assessments online using the BSG RAMS Software.

c) Model COSHH Assessment Template and Guidance

The model COSHH Assessment template, like the Risk Assessments, must be made "site specific" and full instructions are included within the BSG Hub Health and Safety Documents.

The COSHH Assessment template has been formulated to comply with Regulation 6 of The Control of Substances Hazardous to Health Regulations (COSHH) which requires a site specific, suitable and sufficient assessment to be carried out of the risk created by exposure to the substance being used.

Using our template in conjunction with the information contained in the substances Safety Data Sheet (SDS) and your knowledge of where, when and how the substance is to be used is the most efficient way to meet this requirement.

You can also prepare COSHH Assessments online using the BSG RAMS Software.

d) Method Statements Template

The Method Statement should take into account the conclusions of risk assessments made under the Management, Control of Substances Hazardous to Health and the Manual Handling Operations Regulations. It can also help other contractors working on site to understand the effects work will have on them.

If potentially hazardous activities are to be undertaken then method statements should be prepared. If the work is to be carried out by sub-contractors then they should prepare and issue the Method Statement.

The Method Statement must be adhered to and kept up to date. In order to assist, a pro-forma Method Statement is included in the BSG Hub Health and Safety Documents.

You can also prepare Methods Statements online using the BSG RAMS Software.

Permits to Work are used as a control to implement a Method Statement or safe system of work for a potential high risk task. Several different pro-forma Permits to Work are available.

e) Model Environmental Management System

The Model Environmental Management System (EMS) has been developed for companies predominately operating within the construction industry. It has been developed to assist in the successful management of the environmental impacts created during the construction process and associated activities. The Model Environmental Management System can be incorporated into all areas of the business, covering construction processes and activities under your control and include offices, workshops, stores and yards.

It is important to understand that the Model Environmental Management System will have to be adapted to suit the specific company environmental impacts. This system should be independently audited at a minimum of three year intervals.

3. Health and Safety Advisory Service

Our Team are available at all times during office hours Monday to Thursday 08.30 to 17.00 and Fridays 08.30 to 16.00 to answer your queries. Mobile telephone numbers of all Safety Advisers are detailed in the Operational Structure at Appendix 1C. Current details are maintained in the Summary of Services provided in the BSG Hub Health and Safety Documents.

If you have a technical query you can either telephone one of the Safety Advisers who visit your sites and/or office, or telephone our office. Emergency cover is provided throughout the Christmas Break.

4. Incident Support

In the unfortunate event of an accident or incident on site please call our dedicated support team on 0300 304 9070 (office hours Monday to Friday see above) for advice and guidance with regards to the correct steps to take including help with decision making as to whether an incident needs reporting under RIDDOR (Reporting of Injuries, Diseases and Dangerous Occurrences Regulations).

Our expert team will also provide verbal advice, assistance and guidance with carrying out and documenting an accident investigation as well as practical advice around mitigating or preventing re-occurrence.

If you would like BSG to carry out an accident investigation on your behalf and prepare a written report based on our investigation and findings, this service is available at additional cost. Please refer to section 3. Additional Services for more details.

5. Provision of Information

We provide regular information through our newsletter, which includes new legislation and useful information on Health and Safety matters. In order to receive this newsletter together with HSE Blitz Notices, Safety Alerts and BSG Seminar and Webinar information, please ensure that you have registered for the BSG Hub at <https://bsgltd.co.uk/bsg-hub-registration-page/>

6. Discounted Members' Rates for BSG Training Courses

All members receive discounted rates for our training courses; please contact our Training Team for details – 0300 304 9080.

SUMMARY OF SERVICES INCLUDED WITHIN MEMBERSHIP PLUS

If you subscribe to Membership Plus you will receive the services outlined in pages 6-8 and also benefit from the following:

1. Site Inspections

We have Safety Advisers strategically based in most parts of England, Wales and Scotland and your sites will be visited by the nearest available Safety Adviser. In order for site inspections to be carried out it is necessary to complete a Site Notification Form which can either be completed and submitted online or by downloading the form in the Members Documents section of the BSG Hub and sending by email to info@bsgltd.co.uk. Complete the site address as fully as possible and include the post code in order to assist our Safety Adviser when locating the site and also a contact name and telephone number.

Site inspections will commence up to a maximum of 3 weeks after site registration, however, we will try to assist where a more urgent visit is required, subject to a Safety Adviser being available. Please note that site inspections will be carried out between the hours of 8.00am and 5.00pm Monday to Thursday and between 8.00am and 4.00pm on Fridays.

Site inspections will be carried out regularly, unannounced, at periods of up to 20 working days. Your Site Manager should accompany our Safety Adviser around the site when carrying out inspections in order that they can discuss issues on site. Should the Site Manager be unavailable you should nominate someone else on site to accompany our Safety Adviser.

A copy of the Site Inspection Report will be emailed to your Head Office after the visit, therefore it is essential that you provide a Head Office email address to which all copies of the site inspection reports should be sent.

Please note that there is an additional charge per site inspection for sites within the M25 ring.

Using your company log-in username and password you can access the Site Report Manager and view Site Inspection Reports for current and closed sites.

NOTE: We have a duty to all members of the Building Safety Group to ensure that site inspections are carried out in an economically viable manner for all our members. Therefore, should the cost of providing you with site inspections within your subscription fall below a point where the Building Safety Group's costs are not covered, we will contact you to arrange a meeting to discuss the way forward.

This may entail placing a limit on the number of site inspections you receive or increasing your subscription so you can achieve the number of site inspections you require.

Chargeable Not on Site Visits

When we attempt to carry out an inspection at one of your sites and our Safety Adviser is unable gain access, or is turned away from the site or there is no one available to accompany the Safety Adviser we will make nominal charge of £100+ VAT.

To avoid paying this charge, we ask members to do their best to ensure that sites are always available for inspection when a BSG Safety Adviser calls. If this is not possible, please can we ask members to provide advance notice when a site is not accessible. You

can do this by calling our Membership Services team 0300 304 9070 or by emailing info@bsqltd.co.uk.

2. Office Inspections & Workshop Inspections

We will carry out a Health & Safety Inspection of your Head Office on an annual basis and if you have a workshop we will carry out an inspection three times a year (upon request).

3. Accident and Non-Compliance Statistics

Available to compile from site inspection reports to provide accident and non-compliance statistics. These statistics highlight possible areas which require attention and/or staff training.

Using your company log-in username and password you can access the Site Report Manager and print off reports and statistical data relating to your company.

4. Members Annual Health & Safety Review

We recommend you take advantage of our Annual Health & Safety Review meeting whereby one of our Safety Advisers will meet you at a pre-arranged time at your office to run through health & safety matters, including a brief review of your safety policy, health & safety procedures, statistical data, training records and other issues. Please contact our Membership Services Team on 0300 304 9070 to arrange.

The review may include the production of a report which follows the format of table 4 of PAS91 and may be utilised as part ofSSIP accreditation.

Please note that as a not for profit, membership organisation, we have a duty to all our members to ensure that Review Meetings are carried out in an economically viable manner. We therefore monitor the time it takes our Safety Advisers to conduct them and where they are asked to exceed three hours per visit (or incur excessive travel times), we reserve the right to suspend the meeting in order to agree the scope of and prepare a quotation to cover the anticipated fees for the work that is required.

SUMMARY OF SERVICES INCLUDED WITHIN STANDARD MEMBERSHIP & SITE INSPECTION BUNDLE

If you subscribe to Standard Membership & Site Inspection Bundle you will receive the services outlined in pages 6-8 and also benefit from the following:

1. Site Inspections

Site inspections are purchased in pre-agreed bundles and paid for in advance in conjunction with BSG Membership.

Member companies with this membership level can draw down against a pre-purchased number of inspections at frequencies agreed with our Servicing Teams. Once the allocated number of inspections has been used you can purchase subsequent bundles of inspections to reflect your current/ongoing inspection requirements.

We have Safety Advisers strategically based in most parts of England, Wales and Scotland and your sites will be visited by the nearest available Safety Adviser. In order for site inspections to be carried out it is necessary to complete a Site Notification Form which can either be completed and submitted online or by downloading the form in the H&S Documents section of the BSG Hub and sending by email to info@bsgltd.co.uk. Complete the site address as fully as possible and include the post code in order to assist our Safety Adviser when locating the site and also a contact name and telephone number. Site inspections will commence up to a maximum of 3 weeks after commencement of the project, however, we will try to assist where a more urgent visit is required, subject to a Safety Adviser being available. Please note that site inspections will be carried out between the hours of 8.00am and 5.00pm Monday to Friday.

Site inspections will be carried out regularly, unannounced, at periods of up to 20 working days or at frequencies agreed with our Servicing Teams. Your Site Manager should accompany our Safety Adviser around the site when carrying out inspections in order that they can discuss issues on site. Should the Site Manager be engaged e.g. in a site meeting, your Site Manager should nominate someone else on site to accompany our Safety Adviser. A copy of the Site Inspection Report will be emailed to your Head Office after the visit, therefore it is essential that you provide a head office email address to which all copies of the site inspection reports should be sent. (Please note that there is an additional charge per site inspection for sites within the M25 ring).

Unless otherwise agreed our inspections are carried out on an unannounced basis because our members believe this gives a true representation of a sites safety performance. If the site team refuses our Safety Adviser access to the site or none of your operatives are on site or unavailable at the time of our visit then the visit will still be counted as an inspection and reported as a not on site and viewed as a completed visit.

Using your company log-in username and password you can access the Site Report Manager and print off Site Inspection Reports for current and closed sites.

This service is conditional upon concurrent membership of BSG and, in the event of the membership subscription not being paid or becoming overdue, then all service will be suspended until the subscription payment has been received and cleared.

2. Accident and Non-Compliance Statistics

Available to compile from site inspection reports to provide accident and non-compliance statistics. These statistics highlight possible areas which require attention and/or staff training.

Using your company log-in username and password you can access the Site Report Manager and print off reports and statistical data relating to your company.

3. Members Annual Health & Safety Review

We recommend you take advantage of our Annual Health & Safety Review meeting whereby one of our Safety Advisers will meet you at a pre-arranged time at your office to run through health & safety matters, including a brief review of your safety policy, health & safety procedures, statistical data, training records and other issues. Please contact our Membership Services Team on 0300 304 9070 to arrange.

The review may include the production of a report which follows the format of table 4 of PAS91 and may be utilised as part ofSSIP accreditation.

Please note that as a not for profit, membership organisation, we have a duty to all our members to ensure that Review Meetings are carried out in an economically viable manner. We therefore monitor the time it takes our Safety Advisers to conduct them and where they are asked to exceed three hours per visit (or incur excessive travel times), we reserve the right to suspend the meeting in order to agree the scope of and prepare a quotation to cover the anticipated fees for the work that is required.

SUMMARY OF SERVICES INCLUDED WITHIN MANUFACTURING / PLANT MEMBERSHIP

If you subscribe to Manufacturing/Plant Membership you will receive the services outlined in pages 6-8 and also benefit from the following:

1. Inspection Visits

We have Safety Advisers strategically based in most parts of mainland UK and your premises will be visited by the nearest available Safety Adviser. The sites to be visited will be identified at the commencement of your membership and the dates of visits subsequently arranged with your local Safety Adviser.

A total of three visits per year will be carried out as part of your membership, either to one location or spread over several. One of your management team should accompany our Safety Adviser around the site when carrying out inspections in order that they can discuss issues on site. A copy of the inspection report will be emailed to you a short time after the visit. (Please note that there is an additional charge for sites within the M25 ring).

2. Office Inspections

We will carry out a Health & Safety Inspection of your Head Office on an annual basis.

3. Accident Statistics

Available to compile from the information from within the inspection reports to provide accident statistics. These statistics highlight possible areas which require attention and/or staff training.

Using your company log-in username and password you can access Site Report Manager and print off reports and statistical data relating to your company.

4. Members Annual Health & Safety Review

We recommend you take advantage of our Annual Health & Safety Review meeting whereby one of our Safety Advisers will meet you at a pre-arranged time at your office to run through health & safety matters, including a brief review of your safety policy, health & safety procedures, statistical data, training records and other issues. Please contact our Membership Services Team on 0300 304 9070 to arrange.

The review may include the production of a report which follows the format of table 4 of PAS91 and may be utilised as part ofSSIP accreditation.

Please note that as a not for profit, membership organisation, we have a duty to all our members to ensure that Review Meetings are carried out in an economically viable manner. We therefore monitor the time it takes our Safety Advisers to conduct them and where they are asked to exceed three hours per visit (or incur excessive travel times), we reserve the right to suspend the meeting in order to agree the scope of and prepare a quotation to cover the anticipated fees for the work that is required.

2. TRAINING PROVISION

The Building Safety Group Limited is dedicated to delivering the highest quality health and safety training, specifically designed for the building and construction industry.

As a not-for-profit business we regularly review market prices to ensure we are always providing the best value for money, our already competitive rates are further discounted for members of the Building Safety Group Ltd

A team of highly qualified and experienced trainers located throughout the country enable us to deliver a complete range of health and safety courses nationally depending on your needs and location.

Our training centre in Bristol features scaffolding and a confined space chamber for practical course elements. We are an approved Training Provider Network (TPN) for CITB, Independent Asbestos Training (IATP), Independent Training Standards Scheme and Register for Plant Training and First Aid Industry Training Body approved for First Aid courses.

Other courses that we can deliver nationally include:

- Abrasive Wheels
- Asbestos
- Basic Scaffold Inspection
- Cable Avoidance
- CDM 2015 Awareness
- Directors' Responsibilities
- Manual Handling
- Mental Health Awareness
- Mobile Towers
- Plant and Machinery Training

Most training courses are delivered face to face in a classroom however we can deliver some of them remotely using Zoom.

Many of our members find that they require a course specifically tailored to meet their exact requirements. Our understanding of the construction industry and the changing training needs of organisations enables us to provide specific bespoke training on virtually all health and safety matters.

In addition, our digital platform offers essential safety awareness courses. BSG's online training programme features interactive assessments and progress tracking, with users able to pause and resume training as needed. Courses are offered with 24/7 accessibility from any device, allowing workers to complete training at their own pace.

For course programmes, a full list of courses, prices and dates, please contact our Training team on 0300 304 9080 or email training@bsqltd.co.uk.

3. ADDITIONAL SERVICES – supplied at extra cost

a. CDM Support

We are able to assist members to fulfil their roles as Client, Principal Designer and Principal Contractor under the CDM Regulations 2015. The cost of this service is based on the time involved and we will provide a quotation upon receipt of details of the project.

b. Health & Safety Audits

An Audit is designed to give an accurate appraisal of your organisation's current health and safety practices and assess whether you are meeting your legal duties and maintaining acceptable standards. The cost of this service is based on the time involved and we will provide a quotation upon receipt of details of the project.

c. Incident Investigation Service

Accident/Incident Investigation Structure and Scale of Charges:

i) Category A, Minor or Simple Accident/Incident/ Near Miss Investigation

This lower-level category will involve a short investigation which will be carried out by a qualified BSG Safety Adviser. The adviser will assess the situation and make recommendations to prevent a reoccurrence of the accident, incident or near miss alongside any general lessons learned.

Work required: Site Visit and applicable report. Cost £399 + VAT

ii) Category B: Serious Accident Investigation

Major injury/ill health with possible claim. Possible RIDDOR or Dangerous Occurrence.

As defined in RIDDOR, Schedule 1 which may include fractures (other than fingers or toes), amputations, loss of sight, a burn or penetrating injury to the eye, any injury or acute illness resulting in unconsciousness, requiring resuscitation or requiring admittance to hospital for more than 24 hours; serious injury/ill health: where the person affected is unfit to carry out his or her normal work for more than three consecutive days.

This medium level investigation will involve a more detailed review by a specially trained BSG investigator and will look for the immediate, underlying and root causes in line with HSG 245.

Work required: Site attendance, written report and peer review. Cost £1,299 + VAT

iii) Category C. Major Accident/ Incident with potential claim and HSE involvement or follow up post RIDDOR

This will involve a high-level investigation by a specially trained BSG investigator. It will be carried out under the supervision of a senior BSG Safety Professional who is also a chartered member of IOSH. The investigation will examine and identify the immediate, underlying, and root causes of the accident, which may assist your legal defence.

Work required: Site attendance, written report and peer review. Cost £1,599 + VAT.

The contents of the report are confidential between you and The Building Safety Group, although a copy may be requested by the HSE. If the HSE do demand a copy of the accident investigation report and we are subsequently requested to provide copies to third parties in accordance with the Freedom of Information Act, we will oppose this under Section 4.1 of the Act in order that members are not discouraged from taking advantage of this valuable accident investigation service.

d. Site Safety Folder

“EVERY SITE SHOULD HAVE A COPY OF THE SITE FOLDER”

As well as containing Statutory Documentation which is required to be completed by law, the folder contains model fire plans, induction forms, accident report forms and other important information on Health & Safety matters.

Whilst the Site Safety Folder is, as its title implies, a document aimed at the site or Project Manager, many companies also keep a copy at their Head Office.

The Site Safety Folders are £84.99 plus carriage and VAT. The contents sheet of the Site Safety Folder can be found later in this document at Appendix 3A.

e. Health and Safety Law Poster

Required by law at every workplace, the Health and Safety Law Poster is available by e-mailing or faxing an order to our Head Office and costs £16.00 plus carriage and VAT.

f. Additional Site Inspections

Site inspections are carried out regularly, unannounced, at periods of up to 20 working days which is sufficient in most instances. Should you require more frequent site inspections, this can be arranged at an additional cost of £240.00 + VAT per inspection, plus travel. (Please note that there is an additional charge for sites within the M25 ring).

g. Site Inspections outside Mainland England, Scotland or Wales (e.g. Isle of Wight)

As these site inspections involve a disproportionate amount of time and can sometimes involve one off costs, like ferry charges, we will make an additional charge. We would be happy to provide costs when locations are known.

h. Annual Office Inspections of Regional or Satellite Offices

At your request we can carry out a Health & Safety Inspection of your Regional or Satellite offices on an annual basis. An inspection report will be filled out on each occasion and a copy emailed to you. Our charge for this service would be £230.00 + VAT.

i. Toolbox Talks

Short and specific training sessions delivered to site based personnel (maximum number advised 10) by our Safety Advisers have proved invaluable to members who wish to deliver a particular message. If delivered during our normal site inspection visit we are able to provide this service at a cost of £60.00 + VAT.

SITE SAFETY FOLDER CONTENTS

APPENDIX 3A

Section	Contents
	Introduction
1. Administration	1.1 Contact Information 1.2 Site Administration Checklist 1.3 Contract Risk/Hazard Identification 1.4 Suggested Site Notice Board Layout 1.5 Site Induction Format and Checklist 1.6 Safety Induction Information 1.7 Record of Safety Induction 1.8 Operative Information / Competency Record 1.9 Visitor Register 1.10 Health, Safety & Welfare Monitoring Report 1.11 Personal Protective Equipment Register 1.12 Safety Action Report 1.13 Toolbox Talk Register 1.14 Training Register

COMPLIANCE AUDIT REQUEST

COMPLIANCE AUDIT

Construction safety management is serious business!

Concerned about your health and safety procedures?

- | | |
|------------------------------|-----------------|
| • Keeping up to date? | LEGAL DUTIES |
| • Looking after your assets? | EMPLOYEE SAFETY |
| • Avoiding court action? | LITIGATION |

The Building Safety Group Ltd can offer you a system which is designed to provide straightforward answers to key questions. This will allow you to check on the adequacy of your safety efforts and pinpoint targets for action.

The **BSG Compliance Audit** is designed to provide an accurate appraisal of your organisation's current health and safety practices and will assess whether you are meeting your legal duties and maintaining acceptable standards.

For further information contact The Building Safety Group Limited
