BSG Health and Safety Awareness

(1 day)

This Health and Safety Awareness course provides a practical summary of health, safety, welfare and environmental issues identifying individual responsibilities, employers duties and what should be done if health and safety is put at risk

Who is it for?

The course is for those who have entered or are about to enter the construction and civil engineering industry as a member of the workforce, and is to help them understand the potential hazards that they face at work on site. This course also acts as a refresher course for long standing employees.

What we offer

- Occupational Health Services
- Regular Site Inspections
- Site Inspection Reports
- Non-Compliance Reporting
- Accident Reporting
- CDM Compliancy
- Risk Management Tools
- Annual Health Check
- Accident Investigation
- Training Courses
- SSIP Assistance
- Member Helpline
- Toolbox Talks
- Health and Safety Audits
- Annual Office Inspections
- Environmental advice
- UK Coverage
- Online Accident Statistics
- Dedicated Safety Advisers

What will you learn?

The aim of this course is to help delegates to understand their individual responsibilities and what is expected of them and to ensure they contribute to the safety of the workplace.

By attending BSG's course you will be able to:

- Understand the need to prevent accidents
- Have an understanding of health and safety law
- Be able to identify how your role fits into the control and management of the site
- Understand the need for risk assessment and method statement
- Appreciate the need to perform safely and to stop and ask for advice if unsure.

Qualification

Successful candidates will be awarded The Building Safety Group Health and Safety Awareness certificate. It is recommended that this qualification is refreshed every 3 years.
