Your partners in health, safety and environmental welfare

Lorry Loader (HIAB) Training

Lorry Loader (HIAB) training would be delivered to you on your own site, you would need to supply the loader/HIAB equipment and area to conduct training.

The trainer will incorporate practical tasks, meaning candidates are able to undertake the types of jobs they are required to complete in their normal working day. Training can be carried out in-house or accredited through ITSSAR on request. Additional registration fees apply.

What we offer

- Occupational Health Services
- Regular Site Inspections
- Site Inspection Reports
- Non-Compliance Reporting
- Accident Reporting
- CDM Compliancy
- Risk Management Tools
- Annual Health Check
- Accident Investigation
- Training Courses
- SSIP Assistance
- Member Helpline
- Toolbox Talks
- Health and Safety Audits
- Annual Office Inspections

Equipment requirements

The client is responsible for supplying all equipment & PPE.

Lorry Loader Crane	In good serviceable condition. Manufacturers' instructions should be made available for training.
Loads/ Materials	A supply of realistic loads appropriate to the training being given. Training will simulate a working environment. Without a good selection of loads to handle, training might fall short of expected standards.
Lifting tackle	Sufficient that a load can be attached and lifted. Examples include Webbing Slings, Chain Slings, Round Slings, Wire Rope Slings, Shackles, Eye Bolts, Lifting Frames/Spreader Beams etc. All lifting tackle must have a current and in date certificate of inspection. This inspection should adhere to the Lifting Operations and Lifting Equipment Regulations 1998 (LOLER). The only exception being when training is completed using a grab attachment.
Practical Training area	While training is in progress, access to this area should be restricted to the instructor and trainees. Normal work tasks potentially may be incorporated at a later stage.
Office/ Classroom/ Cabin	A well-lit and suitable heated closed door environment to conduct theory training. Tables and chairs to accommodate all delegates and the trainer assessor, this must include writing space for all delegates. A screen or projector is desirable but not essential. Exclusive use of this facility is required for between 60-120 minutes on the morning of each training day.

About BSG

The Building Safety Group (BSG) is a not-for-profit organisation which specialises in providing Health, Safety and Environmental consultancy and training for the construction industry. BSG has over 800 members operating across 3500 workplaces throughout the UK.
We conduct over 20,000 site inspections every year and train more than 10,000 construction workers.

What our clients say about us

“Excellent Instruction and very clearly conveyed.”
Southside Scaffolding Limited

“BSG are clearly experts in Health and Safety training for the construction industry.”
CTS

“As I was pretty new to the role, my knowledge was limited but after taking the BSG course I feel very confident I will be able to positively move on in my position. I have learnt a massive amount.”
Prodeck Fixing Ltd

“I learnt a lot about disciplines I previously knew nothing about. Learnt new regs and reinforced my previous knowledge.”
Mirage Interiors

Need a course at your organisation?
